

Makita

12V MAX Mobile 23Ga Pin Nailer

PT354D

CXT

Product Objectives

- Designed to suit the needs of finish carpenters and skirting board installers that require an ultra fine finish
- Develop a mobile 23ga pin nailer that is compact and lightweight that produces an almost invisible finish

Product Overview

Product Specification Sheet

Fastener length	15-35mm
Gauge	23Ga
Magazine capacity	100pcs
Overall length	231mm
Skin weight	1.63kg
Weight (with battery)	2.0kg
Voltage	12V MAX

- **Narrow nose tip** – for quick and easy access to desired driving point of the workpiece
- **Anti dry fire** – nailer will not fire when the remaining nails reach between 0 and 3 nails. This protects the workpiece from damage and ensures the user is aware there are no nails remaining
- **Depth driving adjustment** – tool less depth driving adjustment by turning dial
- **Bump fire** – when the trigger is pulled and the contact arm is depressed onto the material a nail is fired
- **Low reaction force mechanism** – enabling easier nailing of longer pins as the reaction force does not push the tool away from the material
- **Ergonomically designed grip** – with the tools center of gravity perfectly balanced in the operators hand

Advantages

Power

Drives 6 different lengths of 23Ga nails

Precision

Tool-less depth adjustment for precise flush and countersunk finish

Design

Narrow nose design allows easy nailing access in confined spaces

Convenience

Built in LED illuminates the work surface
