

ACCESSORIES – Cold Metal Cutting Blades

136mm x 48t

150mm x 57t

185mm x 60t

- Cold Metal Thin Metal TCT saw blade with improved cutting efficiency that is designed for metal studs and thin metal from .05 to 2mm
- Reduced deformation and burring of the cutting surface due to the special modified triple chip grind tooth design which help provide longer blade life.
 - The thin kerf tips and blade body increase cutting efficiency by reducing cutting resistance.
 - Silencer laser slots back filled with resin for less noise and less vibration
 - Safer and faster cutting with no heat, little sparking no need for a hot work permit.

E-23391
METAL TCT SAW BLADE
136mm x 20mm x 48T

- Blade Diameter: 136mm (5-3/8")
- Bore Diameter: 20mm
- Ring included: 20 x 15.88 x 1.1mm
- Tooth Count: 48T
- Kerf Thickness: 1.1mm
- Blade Thickness: 0.95mm
- Tooth Hook Angle: -7°
- Tooth Configuration: SMTCCG
- Maximum RPM: 4,500
- Replaces – B-15730

Packaging Details

Barcode	197050353627
Length	175mm
Width	200mm
Depth	10mm
Weight	0.185kg

E-23036
METAL TCT SAW BLADE
150mm x 20mm x 57T

- Blade Diameter: 150 mm (5-7/8")
- Bore Diameter: 20mm
- Ring included: 20 x 15.88 x 1.1mm
- Tooth Count: 57T
- Kerf Thickness: 1.1mm
- Blade Thickness: 0.95mm
- Tooth Hook Angle: -7°
- Tooth Configuration: SMTCCG
- Maximum RPM: 4,680
- Replaces – B-47123

Packaging Details

Barcode	197050352705
Length	200mm
Width	225mm
Depth	10mm
Weight	0.23kg

E-23379
METAL TCT SAW BLADE
185mm x 20mm x 60T

- Blade Diameter: 185mm (7-1/4")
- Bore Diameter: 20mm
- Ring included: 20 x 15.88 x 1.25mm
- Tooth Count: 60T
- Kerf Thickness: 1.25mm
- Blade Thickness: 1.1mm
- Tooth Hook Angle: -7°
- Tooth Configuration: SMTCCG
- Maximum RPM: 5,800
- Replaces – B-15796

Packaging Details

Barcode	197050353603
Length	225mm
Width	250mm
Depth	10mm
Weight	0.35kg
